### CPA Canada

### Financial Literacy

#### About us

Chartered Professional Accountants of Canada (CPA Canada) is one of the largest national accounting organizations in the world, representing more than 210,000 members. Domestically, CPA Canada works cooperatively with the regional CPA bodies who are charged with regulating the profession. Globally, it works together with the International Federation of Accountants and the Global Accounting Alliance to build a stronger accounting profession worldwide.

CPA Canada, created through the unification of three legacy accounting designations, is a respected voice in the business, government, education and non-profit sectors and champions sustainable economic growth and social development. The unified organization is celebrating five years of serving the profession, advocating for the public interest and supporting the setting of accounting, auditing and assurance standards.

CPA Canada develops leading-edge thought leadership, research, guidance and educational programs to ensure its members are equipped to drive success and shape the future. [cpacanada.ca](http://cpacanada.ca)

#### Vision

The Chartered Professional Accountants of Canada (CPA Canada) has the opportunity to become a fundamental driver of the economic health of individual Canadians, their businesses and, the broader economy by taking action to solve a high profile social problem.

#### Mission

To deliver unbiased objective financial literacy education and information to Canadians to improve the overall state of financial literacy in Canada.
Why CPA Canada?

- CPAs are professional financial experts who have earned a solid reputation and position of trust with Canadians.
- The top priorities of CPAs are protecting and acting in the public’s interest.
- CPAs are a national network of more than 210,000 members of whom more than 50% would volunteer to further financial literacy education.
- CPAs are already active in their communities and have a long history of giving back.

Key Components

- CPA Canada Financial Literacy delivers a program of financial literacy education seminars nationally at the grassroots level through our member volunteer network.
- Our website with information, tools and resources can strengthen financial capability of Canadians: cpacanada.ca/financialliteracy
- We provide thought leadership through ongoing research surveys.
- Our innovative new CPA Canada publications
  - A Parent’s Guide to Raising Money-Smart Kids
  - A Canadian’s Guide to Money-Smart Living
  - Protecting You and Your Money: A Guide to Avoiding Identity Theft and Fraud
  - A Procrastinator’s Guide to Retirement: How to retire in 10 years or less
  - Survive and Thrive: Move ahead financially after losing your job
  - Babie$: The real story of how much they cost
Adults

CPA Canada’s eight 60-min adult sessions target the diverse financial literacy needs of Canadians, by aiding individuals to get the information they need to make smart financial decisions. Whether they are starting out in their career, raising children or planning to retire, there is something for everyone.

- Learn what taxes need to be paid, and how to pay them
- Learn how to reduce taxes, and how to gain benefits today and in the future
- Learn how to file a tax return and what happens once filed
School (Elementary & High School)

CPA Canada’s in-school financial literacy program focuses on teaching students the basic concepts and skills needed to make smart financial decisions. Through interactive activities, case studies and planned workshops, students gain a better understanding of money matters thus to help them get started towards a financially bright future.
Workshop Overviews:

The workshops are independent of each other. They are 45-60 minutes long.

Lesson Outline:

- Facilitator Introduction
- Topic Introduction
- Activity
- Q&A/Closing

Grades 4 & 5

Bartering

Learning objectives: Different items have different values (i.e., you cannot compare one apple to one pound of wheat). Money places a specific value on items and solves this issue.

Needs & Wants

Learning objectives: There is a difference between “needs” and “wants”. It’s important to know the difference between the two in order to make smart decisions with our money.

Savings & Bank Accounts

Learning objectives: Small changes can make big differences. Saving is a mindset which we have to train ourselves to develop and use when making daily financial choices.

Pet Shop

Learning objectives: To better understand the level of responsibility and commitment required of pet ownership. To be aware that unforeseen situations can occur when owning a pet and it’s important to be ready when they do.
Grades 7 & 8

Budgeting & Expenses
Learning objectives: Budgeting is about making choices between what we need and what we want. Staying on or under a budget reaps positive rewards. You are in charge of your choices, but first you have to be aware that you are making them.

Earning Income
Learning objectives: Skills and abilities are related to earning income. We do the best work when we are passionate about what we do.

Goal Setting
Learning objectives: Setting S.M.A.R.T goals is important because they keep you on track to making dreams tangible and achievable.

Savings & Bank Accounts
Learning objectives: Small changes make big differences. Saving is a mindset which we have to train ourselves to develop and use when making daily financial choices.

Grades 10 & 11

Budgeting & Saving
Learning objectives: Budgeting is important in order for us to know where our money is going and to help us keep our spending and saving habits in balance.

Credit Cards & Bad Debt vs. Good Debt
Learning objectives: There is a difference between good debt and bad debt. It’s important to understand the difference so that we do not put ourselves in a situation where we can’t repay our debts.

Earning Income
Learning objectives: Skills and abilities are related to earning income. We do the best work when we are passionate about what we do.

Goal Setting
Learning objectives: Setting S.M.A.R.T. goals is important because they keep you on track to making dreams tangible and achievable.
Post-Secondary

This 60-min session focuses on teaching post-secondary students, preferably in their second year, about how credit works and what debt can do to future financial plans. It also shows them practical ways to take control of their finances.
Own Your Financial Future: Managing Debt and Making Credit Work for You

**Audience:** Post-Secondary students (preferably in their second year)

**Outline:**
- How credit works
- How debt accumulates
- Opportunity cost
- Good debt vs bad debt
- What you need to know about credit ratings
- How to take control of your finances before they take control of you
- Resources
- Q & A

**Learning objectives:**
- Learn what credit is and how it works.
- Understand how debt can pile up and how this can have negative consequences on future financial plans.
- Understand the difference between good debt and bad debt and the value of having a good credit rating.
- Learn practical ways to take control of finances.

Slaying your taxes

**Audience:** Post-Secondary students

**Outline:**
- Why we pay taxes and where do they go
- Do you have to file?
- Benefits of filing taxes
- RRSP vs. TFSA
- What is non-taxable income
- Deductions, credits and special rules for students
- Answers to the top five questions students ask
- How to file an income tax return
- Resources
- Q&A

**Learning objectives:**
- Understand taxes and filing income tax returns
- Learn about contribution limits and non-taxable income
- Find out about deductions and credits for students
Small and Medium Business

These eight 60-min sessions are designed to educate the small and medium-sized business owner and/or manager on a series of key business financial literacy topics, from the basics of financial statements through the tools of effective financial management.
Understanding Financial Statements

This is a basic session explaining the terms and concepts of financial statements.

Outline:
• How’s the business doing?
• Did we make money this year?
• What does my P&L tell me?
• Why do I need a balance sheet?
• Where is my cash coming from?
• Where is my cash going to?
• Why isn’t my cash equal to my profit?

Learning objectives:
• To be able to review and understand their financial statements
• To be able to ask informed questions of their financial professionals

Advanced Financial Statements

This is an advanced session explaining the more advanced and complex concepts of financial statements, including: accruals, amortization, accelerated depreciation, accrued payables, work in process, non-operating income, goodwill, earnings per share and cash and accrual accounting.

Outline:
• How are cash and accrual accounting different?
• Why is my balance sheet so complicated?
• What is depreciation?
• Why are prepaid expenses assets?
• How do I account for intangible assets?
• What are retained earnings?
• How are earnings per share determined?
• What is non-operating income?

Learning objectives:
• To be able to review and interpret more complex financial statements
• To understand the terminology so they can ask informed questions of their financial professionals
Financial Ratios and Why They Matter to Your Business

This is a basic session explaining the calculation and interpretation of financial ratios

Outline:
• How profitable is my business?
• How do my profits compare to the industry?
• What’s the trend in my profits?
• How quickly are we growing?
• Can we pay the bills?
• Can we pay the bank?
• Am I getting a return on my investment?

Learning objectives:
• To be able to calculate the key financial ratios for their business and understand the meaning of the calculations
• To be able to interpret the results to better manage their business

The Money Side of Business

This is an advanced session explaining the basic tools and techniques of financial management for a business owner, including budget creation and monitoring, cash management, product/division/customer analysis, planning/forecasting, and trend analysis.

Outline:
• What’s financial management?
• What tools can help operate my business?
• How do I determine if a product is profitable?
• What’s my most profitable product?
• Who are my most profitable customers?
• Why do I need a budget?
• How do I create and use a budget?
• What reports do I need?
• How do I tell where my business is heading?

Learning objectives:
• To be able to use financial management tools to evaluate their business and make informed financial decisions
Growth and Expansion: How Best to Grow Your Business

This is a session explaining the financial implications of growth of a business, tools and techniques to analyze and plan for growth, and the best times and best reasons to grow a business.

Outline:

• What are the best reasons to grow a business?
• When is the best time to grow a business?
• How do we plan for growth and expansion?
• What are the financial implications of growth?
• Will growing my business increase my profits?
• How much cash will we need to expand?
• What happens if we get unexpected growth?

Learning objectives:

• To be able to determine when business expansion makes sense
• To understand how to project growth and expansion and to know how to react when unexpected growth occurs

Getting Money: What Lenders and Investors Want

This session explains to the business owner the financial and non-financial information a bank or investor uses to evaluate a loan/investment request, and explains the steps necessary to prepare a business for presentation to a lender and/or investors.

Outline:

• Why will I need additional financing and capital?
• What are the typical sources for financing?
• What are the advantages and disadvantages?
• How are lenders and investors different?
• Why do I need a business plan and how do I create one?
• What are leverage ratios and how should I use them?
• How do leverage ratios vary between business types?
• How do lenders look at my business?

Learning objectives:
• To understand how a bank or investor will evaluate their business and the steps necessary for the owner to get their financial statements and business plans in order for presentation to lenders and investors.

A Healthy Balance Sheet and Why it matters

This session defines the concept of a healthy balance sheet and explain to the business owner how to create a balance sheet that will appear healthy to an investor, buyer or lender.

Outline:
• What does having a healthy balance sheet mean?
• How do others look at my balance sheet?
• What are the measures of balance sheet health?
• What does an investor look at?
• What does the bank look at?
• How can I “cure” an unhealthy balance sheet?

Learning objectives:
• To understand the key ratios that are used to measure a healthy balance sheet
• To be able to explain the actions necessary to fix any unhealthy parts of their balance sheet

Maximize Your Business

This session explains the key concepts of cash management, working capital and operational efficiency.

Outline:
• Sales are great, why don’t we have any cash?
• Do we have enough cash to pay expenses?
• How much cash do we need for expansion?
• Can I free up some cash from the business?
• How can I get customers to pay on time?
• Are we managing cash efficiently?

Learning objectives:
• To be able to review and change their cash management practices so less cash is required to operate the business and the cash needs of the business can be projected and analyzed.
Entrepreneurs

These 60-min sessions help entrepreneurs with the tools and understanding of how to make their startup businesses a success.
