

## Report of Independent Accountants

To the Management of QuoVadis Limited

We have examined the accompanying assertion made by the management of QuoVadis Limited (QuoVadis), titled **Management's Assertion Regarding the Effectiveness of Its Controls Over its Code Signing Certification Authority Operations based on WebTrust Principles and Criteria for Certification Authorities - Code Signing Baseline Requirements v2.0** that provides Code Signing Certification Authority services at Bermuda, the Netherlands, Switzerland, the United Kingdom, Belgium and Germany, throughout the period 1 January 2021 to 31 December 2021 for Certification Authorities as enumerated in Appendix A, QuoVadis has:

- ▶ Disclosed its Code Signing (CS) Certificate practices and procedures and its:
  - ▶ QuoVadis Root CA 1 / Root CA 3 Certificate Policy / Certification Practice Statement, version 4.37 dated 20 December 2021 for the QuoVadis Root CA, QuoVadis Root CA 1 G3, QuoVadis Root CA 3, and QuoVadis Root CA 3 G3; and
  - ▶ QuoVadis Root CA 2 Certification Policy/ Certification Practice Statement, version 2.16 dated 20 December 2021. for the QuoVadis Root CA 2, QuoVadis Root CA 2 G3.
- ▶ Maintained effective controls to provide reasonable assurance that:
  - ▶ CS subscriber information was properly collected, authenticated (for the registration activities performed by the Certification Authority (CA), Registration Authority (RA), and Subcontractor) and verified; and
  - ▶ The integrity of keys and CS certificates it manages is established and protected throughout their life cycles,

based on the WebTrust Principles and Criteria for Certification Authorities - Code Signing Baseline Requirements v2.0.

QuoVadis' management is responsible for its assertion and specifying the aforementioned Criteria. Our responsibility is to express an opinion on management's assertion based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

The relative effectiveness and significance of specific controls at QuoVadis and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Our examination was not conducted for the purpose of evaluating QuoVadis' cybersecurity risk management program. Accordingly, we do not express an opinion or any other form of assurance on its cybersecurity risk management program.

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. Because of inherent limitations in its internal control, QuoVadis may achieve reasonable, but not absolute assurance that all security events are prevented and, for those controls may provide reasonable, but not absolute assurance that its commitments and system requirements are achieved. Controls may not prevent or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements.

Examples of inherent limitations of internal controls related to security include (a) vulnerabilities in information technology components as a result of design by their manufacturer or developer; (b) breakdown of internal control at a vendor or business partner; and (c) persistent attackers with the resources to use advanced technical means and sophisticated social engineering techniques specifically targeting the entity. Furthermore, the projection of any evaluations of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions, that the degree of compliance with such controls may deteriorate, or that changes made to the system or controls, or the failure to make needed changes to the system or controls, may alter the validity of such evaluations.

In our opinion, QuoVadis management's assertion referred to above is fairly stated, in all material respects, based on the aforementioned criteria.

QuoVadis' use of the WebTrust Principles and Criteria for Certification Authorities - Code Signing Baseline Requirements Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

This report does not include any representation as to the quality of QuoVadis' CA services beyond those covered by *WebTrust Principles and Criteria for Certification Authorities - Code Signing Baseline Requirements v2.0* criteria, or the suitability of any of QuoVadis' services for any customer's intended purpose.

**Management's Assertion Regarding the Effectiveness of Its Controls Over its Code Signing  
Certification Authority Operations. Based on WebTrust Principles and Criteria for Certification  
Authorities - Code Signing Baseline Requirements v2.0**

31 March 2022

The management of QuoVadis Limited (QuoVadis) has assessed the disclosure of its certificate practices and its controls over its Code Signing Certification Authority services. Based on that assessment, in QuoVadis Management's opinion, in providing its Code Signing Certification Authority services at Bermuda, the Netherlands, Switzerland, the United Kingdom, Belgium and Germany, during the period from 1 January 2021 through 31 December 2021 has:

- Disclosed its Code Signing (CS) Certificate practices and procedures in its:
  - [QuoVadis Root CA 1 / Root CA 3 Certificate Policy / Certification Practice Statement, version 4.37](#) dated 20 December 2021 and
  - [QuoVadis Root CA 2 Certification Policy/ Certification Practice Statement, version 2.16](#) dated 20 December 2021.

including its commitment to provide Code Signing Certificates in conformity with the applicable Minimum Requirements for Publicly Trusted Code Signing, and provided such services in accordance with its disclosed practices,

- Maintained effective controls to provide reasonable assurance that:
  - CS subscriber information was properly collected, authenticated (for the registration activities performed by the Certification Authority (CA), Registration Authority (RA), and Subcontractor) and verified; and
  - The integrity of keys and CS certificates it manages is established and protected throughout their life cycles

for the QuoVadis Root CA, QuoVadis Root CA 1 G3, QuoVadis Root CA 2, QuoVadis Root CA 2 G3, QuoVadis Root CA 3, QuoVadis Root CA 3 G3, the issuing CAs, and Time Stamping certificates in [Appendix A](#), based on the [WebTrust Principles and Criteria for Certification Authorities - Code Signing Baseline Requirements v2.0](#).

Very truly yours,

Anthony Nagel  
Director  
QuoVadis Limited
