REPORT OF THE INDEPENDENT ACCOUNTANT

To the management of Sectigo Limited ("Sectigo"):

Scope

We have examined Sectigo management's assertion that for its Certification Authority ("CA") operations in the locations as enumerated in Attachment B, for its CAs as enumerated in Attachment C, Sectigo has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in the applicable versions of its Sectigo Certification Practice Statement ("CPS") and Sectigo WebPKI Certificate Policy ("CP") enumerated in Attachment A

- maintained effective controls to provide reasonable assurance that:
    o Sectigo's CPS is consistent with its CP; and
    o Sectigo provides its services in accordance with its CP and CPS

- maintained effective controls to provide reasonable assurance that:
    o the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
    o the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
    o subscriber information is properly authenticated (for the registration activities performed by Sectigo); and
    o subordinate CA certificate requests are accurate, authenticated, and approved

- maintained effective controls to provide reasonable assurance that:
    o logical and physical access to CA systems and data is restricted to authorized individuals;
    o the continuity of key and certificate management operations is maintained; and
    o CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

throughout the period of April 1, 2021 to March 31, 2022 based on the WebTrust Principles and Criteria for Certification Authorities v2.2.1.

Sectigo makes use of external registration authorities for specific subscriber registration activities as disclosed in Sectigo's business practices. Our examination did not extend to the controls exercised by these external registration authorities.

Sectigo does not escrow its CA keys and does not provide certificate suspension services. Accordingly, our examination did not extend to controls that would address those criteria.

Certification Authority's Responsibilities

Sectigo's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.1.

Practitioner's responsibilities

Our responsibility is to express an opinion on Sectigo management's assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The relative effectiveness and significance of specific controls at Sectigo and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

Inherent Limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorised access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Independent Accountant's Opinion

In our opinion management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Sectigo's services other than its CA operations as enumerated in Attachment C, nor the suitability of any of Sectigo's services for any customer's intended purpose.

BDO

Other Matter

Without modifying our opinion, we noted the following other matters during our procedures:

	Matter Topic	Matter Description
1	Certificate Content	Sectigo disclosed in Mozilla Bug 1712120 that they discovered 204 active EV SSL certificates that had dates of incorporation in the subject:serialNumber field information instead of the proper registration number.
		Sectigo disclosed in Mozilla Bug 1720744 that an internal certificate audit discovered six (6) certificates issued with incorrect, repeated information in both the Subject stateOrProvinceName and Subject localityName fields.
		Sectigo disclosed in Mozilla Bug 1724458 that an internal certificate audit discovered 41 certificates containing Mojibake, or incorrect characters, in place of the correct UTF-8 encoded characters.
		Sectigo disclosed in Mozilla Bug 1732484 that an internal certificate audit discovered 38 EV certificates where the Subject serialNumber values were incorrectly truncated to 25 characters.
		Sectigo disclosed in Mozilla Bug 1740493 that it had misissued 16 certificates with disallowed LDH labels in the domain names.
		Sectigo disclosed in Mozilla Bug 1741026 that it discovered 11 certificates issued with an incorrect Subject:jurisdictionStateOrProvinceName value for organizations incorporated only at the Country level.
		Sectigo disclosed in Mozilla Bug 1741777 that it was signing OCSP responses directly using root CA certificates from before the Baseline Requirements existed and that did not have the Digital Signature value in the Key Usage extension.
		Sectigo disclosed in Mozilla Bug 1747915 that it misissued one (1) certificate with the incorrect Subject:jurisdictionCountryName value.
2	Subscriber Validation	Sectigo disclosed in Mozilla Bugs 1712188 and 1718579 the Quality Assurance department had access to overwrite the required validation steps before issuing a certificate from the trusted hierarchy.

Matter Topic	Matter Description
	Sectigo disclosed in [Mozilla Bug 1718771](#) that its system was erroneously treating the checks for the ability to reuse the most recent domain validation as the domain control validation.
	Sectigo disclosed in [Mozilla Bug 1721271](#) that 47 certificates were found to be misissued to Private Organizations due to the Subject Distinguished Name missing the organization's registration number when a registration number existed.
	Sectigo disclosed in [Mozilla Bug 1736064](#) that it misissued 453 OV and EV TLS certificates with Subject postOfficeBox fields with unvalidated information.
	Sectigo disclosed in [Mozilla Bug 1756847](#) that it had reused domain control validations performed prior to the change in allowed methods for wildcard domain control validation. Prior validation evidence was used after the methods were no longer allowed, rather than reperforming validation using a new method.
3	Certificate Status Validation	Sectigo disclosed in [Mozilla Bug 1735761](#) that the validity period of its CRL's exceeded what is stated in their CPS by 1 second.
	Sectigo disclosed in [Mozilla Bug 1763203](#) that it was informed of 294 certificates with incorrect OCSP responses from its servers.
4	CP/CPS Disclosure	Sectigo disclosed in [Mozilla Bug 1714628](#) that its methods of domain control validation disclosed in its CPS was not kept up to date with Sectigo's processes and updates to the Baseline Requirements.
5	Logging	For 36 out of 45 S/MIME certificates selected for testing, the activity performed to validate the applicant's control of the subject e-mail address was not logged.

While the Sectigo assertion notes all issues disclosed on Bugzilla from April 1, 2021 through the date of this report, we have only noted those instances relevant to the CAs enumerated in [Attachment C](#) and applicable to the [WebTrust Principles and Criteria for Certification Authorities v2.2.1](#).

Use of the WebTrust seal

Sectigo's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

SECTIGO LIMITED MANAGEMENT'S ASSERTION

Sectigo Limited ("Sectigo") operates the Certification Authority ("CA") services for the root and subordinate CAs enumerated in Attachment C, and provides the following CA services:

- Subscriber registration
- Certificate renewal
- Certificate rekey
- Certificate issuance
- Certificate distribution
- Certificate revocation
- Certificate validation
- Subscriber key generation and management
- Subordinate CA certification and cross-certification

The management of Sectigo is responsible for establishing and maintaining controls over its CA operations, including its CA business practices disclosure on its repository, CA business practices management, CA environmental controls, CA key lifecycle management controls, subscriber key lifecycle management controls, certificate lifecycle management controls, and subordinate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Sectigo's CA operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Sectigo management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in Sectigo management's opinion, in providing its CA services in the locations as enumerated in Attachment B, Sectigo has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environment control practices in the applicable versions of its Sectigo Certification Practice Statement ("CPS") and Sectigo WebPKI Certificate Policy ("CP") enumerated in Attachment A

- maintained effective controls to provide reasonable assurance that:
  - Sectigo's CPS is consistent with its CP; and
  - Sectigo provides its services in accordance with its CP and CPS

- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
  - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
  - subscriber information is properly authenticated (for the registration activities performed by Sectigo); and
  - subordinate CA certificate requests are accurate, authenticated, and approved

1

- maintained effective controls to provide reasonable assurance that:
  - o logical and physical access to CA systems and data is restricted to authorized individuals;
  - o the continuity of key and certificate management operations is maintained; and
  - o CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

throughout the period of April 1, 2021 to March 31, 2022, based on the WebTrust Principles and Criteria for Certification Authorities v2.2.1, including the following:

CA Business Practices Disclosure

- Certification Practice Statement (CPS)
- Certificate Policy (CP)

CA Business Practices Management

- CPS Management
- CP Management
- CP and CPS Consistency

CA Environmental Controls

- Security Management
- Asset Classification and Management
- Personnel Security
- Physical and Environmental Security
- Operations Management
- System Access Management
- System Development, Maintenance, and Change Management
- Disaster Recovery, Backups, and Business Continuity Management
- Monitoring and Compliance
- Audit Logging

CA Key Lifecycle Management Controls

- CA Key Generation
- CA Key Storage, Backup, and Recovery
- CA Public Key Distribution
- CA Key Usage
- CA Key Archival
- CA Key Destruction
- CA Key Compromise
- CA Cryptographic Hardware Lifecycle Management
- CA Key Transportation
- CA Key Migration

Subscriber Key Lifecycle Management Controls

- CA-Provided Subscriber Key Generation Services
- CA-Provided Subscriber Key Storage and Recovery Services
- Integrated Circuit Card (ICC) Lifecycle Management
- Requirements for Subscriber Key Management

Certificate Lifecycle Management Controls

- Subscriber Registration
- Certificate Renewal
- Certificate Rekey
- Certificate Issuance
- Certificate Distribution
- Certificate Revocation
- Certificate Validation

Subordinate CA and Cross Certificate Lifecycle Management Controls

- Subordinate CA Certificate and Cross Certificate Lifecycle Management Controls

Sectigo does not escrow its CA keys and does not provide certificate suspension services. Accordingly, our assertion does not extend to controls that would address those criteria.

Sectigo has disclosed the following matters publicly on Mozilla Bugzilla's platform. These matters were included below due to being open during the period April 1 2021 through the date of this report.

Bug ID	Summary	Opened	Closed	Resolution
1708934	Sectigo: Invalid postalCode field	5/1/2021	7/7/2021	Fixed
1710243	Sectigo: Invalid stateOrProvinceName	5/8/2021	7/9/2021	Fixed
1712120	Sectigo: Inappropriate subject:serialNumber information in EV certificates obtained through ACME	5/20/2021	10/22/2021	Fixed
1712188	Sectigo: test certificates issued from trusted CA	5/20/2021	10/20/2021	Fixed
