

INDEPENDENT ASSURANCE REPORT

To the Management of Krajowa Izba Rozliczeniowa S.A. (KIR):

Scope

We have been engaged, in a reasonable assurance engagement, to report on KIR Management's assertion that for its Certification Authority (CA) operations in Warsaw, Poland, and supporting facilities in Warsaw District, Poland, throughout the period April 9, 2025 to April 8, 2026, for its CAs as enumerated in Attachment A, KIR has:

- ▶ disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in its:
 - o [Certification Practice Statement version 1.23](#) valid until November 30, 2025;
 - o [Certification Practice Statement version 1.24](#) valid until January 11, 2026;
 - o [Certification Practice Statement version 1.25](#) valid until March 13, 2026;
 - o [Certification Practice Statement version 1.26](#); and
 - o [Certificate Policy version 1.14](#) valid until January 11, 2025;
 - o [Certificate Policy version 1.15](#);
 - o [Certification Practice Statement and Certification Policy of KIR for Trusted Non-Qualified S/MIME Certificates version 1.0](#);
 - o [Certification Practice Statement and Certification Policy of KIR for Trusted S/MIME Certificates version 1.0](#);
 - o [Certification Practice Statement and Certification Policy of KIR for Trusted Non-Qualified TLS Certificates version 1.0](#);
- ▶ maintained effective controls to provide reasonable assurance that:
 - o KIR's Certification Practice Statement is consistent with its Certificate Policy; and
 - o KIR provides its services in accordance with its Certificate Policy and Certification Practice Statement
- ▶ maintained effective controls to provide reasonable assurance that:
 - o the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
 - o the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
 - o subscriber information is properly authenticated (for the registration activities performed by KIR); and
 - o subordinate CA certificate requests are accurate, authenticated, and approved
- ▶ maintained effective controls to provide reasonable assurance that:
 - o logical and physical access to CA systems and data is restricted to authorized individuals;
 - o the continuity of key and certificate management operations is maintained; and
 - o CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities v2.2.2](#)

KIR does not provide Subordinate CA [cross-]certification, Subscriber Key Management Services, CA Key Escrow, CA-Provided Subscriber Key Storage and Recovery Services. Accordingly, our report does not extend to controls that would address those criteria.

Certification Authority's responsibilities

KIR's Management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

Our independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence, due care, confidentiality, and professional behavior.

The firm applies International Standard on *Quality Management (ISQM) 1, Quality Management for Firms that Perform Audits or Reviews of Financial Assertions, or Other Assurance or Related Services Engagements* which require the firm to design, implement and operate a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

Practitioner's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000 (Revised), *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- 1) obtaining an understanding of KIR's key and certificate lifecycle management business practices and its controls over key and certificate integrity, over the authenticity and confidentiality of subscriber and relying party information, over the continuity of key and certificate lifecycle management operations and over development, maintenance and operation of systems integrity;
- 2) selectively testing transactions executed in accordance with disclosed key and certificate lifecycle management business practices;
- 3) testing and evaluating the operating effectiveness of the controls; and
- 4) performing such other procedures as we considered necessary in the circumstances.

As part of our engagement, we assessed the attached matters (Attachment B) that have been publicly posted by KIR management in the online forums of the Bugzilla site, as well as the online forums of individual internet browsers that comprise the CA/Browser Forum. We have considered the nature of these issues, their root causes, and CA's remediation plans in determining the nature, timing, and extent of our procedures.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The relative effectiveness and significance of specific controls at KIR and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Shape the future
with confidence

Inherent limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Opinion

In our opinion, throughout the period April 9, 2025 to April 8, 2026, KIR management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

This report does not include any representation as to the quality of KIR's services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities v2.2.2, nor the suitability of any of KIR's services for any customer's intended purpose.

Use of the WebTrust seal

KIR's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

KRAJOWA IZBA ROZLICZENIOWA S.A.'S MANAGEMENT ASSERTION

Krajowa Izba Rozliczeniowa S.A. (KIR) operates Certification Authority (CA) services as enumerated in **Attachment A**, and provides the following CA services:

- Subscriber registration
- Certificate renewal
- Certificate rekey
- Certificate issuance
- Certificate distribution
- Certificate revocation
- Certificate suspension
- Certificate validation
- Subscriber key generation

The management of KIR is responsible for establishing and maintaining effective controls over its CA operations, including its CA business practices disclosure on its website <https://www.elektronicznypodpis.pl/>, CA business practices management, CA environmental controls, CA key lifecycle management controls, subscriber key lifecycle management controls and certificate lifecycle management controls and subordinate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to KIR's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

KIR management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in KIR management's opinion, in providing its Certification Authority (CA) services in Warsaw, Poland, and supporting facilities in Warsaw District, Poland, throughout the period April 9, 2025 to April 8, 2026, KIR has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in its:
 - [Certification Practice Statement version 1.23](#) valid until November 30, 2025;
 - [Certification Practice Statement version 1.24](#) valid until January 11, 2026;
 - [Certification Practice Statement version 1.25](#) valid until March 13, 2026;
 - [Certification Practice Statement version 1.26](#); and
 - [Certificate Policy version 1.14](#) valid until January 11, 2025;
 - [Certificate Policy version 1.15](#);
 - [Certification Practice Statement and Certification Policy of KIR for Trusted Non-Qualified S/MIME Certificates version 1.0](#);
 - [Certification Practice Statement and Certification Policy of KIR for Trusted S/MIME Certificates version 1.0](#);
 - [Certification Practice Statement and Certification Policy of KIR for Trusted Non-Qualified TLS Certificates version 1.0](#);
- maintained effective controls to provide reasonable assurance that:
 - KIR's Certification Practice Statement is consistent with its Certificate Policy; and
 - KIR provides its services in accordance with its Certificate Policy and Certification Practice Statement;

- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
 - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
 - subscriber information is properly authenticated (for the registration activities performed by KIR); and
 - subordinate CA certificate requests are accurate, authenticated, and approved;
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorized individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities v2.2.2](#), including the following:

CA Business Practices Disclosure

- Certification Practice Statement (CPS)
- Certificate Policy (CP)

CA Business Practices Management

- Certificate Policy Management
- Certification Practice Statement Management
- CP and CPS Consistency

CA Environmental Controls

- Security Management
- Asset Classification and Management
- Personnel Security
- Physical & Environmental Security
- Operations Management
- System Access Management
- System Development and Maintenance
- Business Continuity Management
- Monitoring and Compliance
- Audit Logging

CA Key Lifecycle Management Controls

- CA Key Generation
- CA Key Storage, Backup, and Recovery
- CA Public Key Distribution
- CA Key Usage
- CA Key Archival
- CA Key Destruction
- CA Key Compromise
- CA Cryptographic Hardware Lifecycle Management
- CA Key Migration

Subscriber Key Lifecycle Management Controls

- CA-Provided Subscriber Key Generation Services
- Integrated Circuit Card (ICC) Lifecycle Management
- Requirements for Subscriber Key Management

Certificate Lifecycle Management Controls

- Subscriber Registration
- Certificate Renewal
- Certificate Rekey
- Certificate Issuance
- Certificate Distribution
- Certificate Revocation
- Certificate Suspension
- Certificate Validation

KIR does not provide Subordinate CA [cross-] certification, Subscriber Key Management Services, CA Key Escrow, CA-Provided Subscriber Key Storage and Recovery Services. Accordingly, our statement does not extend to controls that would address those criteria.

Attachment B: List of Bugzilla issues noted during the period under review.

Mozilla Bug # Link	Description	Date Reported	Date Resolved	Criteria
1967929	Two CPRs were sent to by the Chrome Root Program Team on May 2, 2025 (~14:09 UTC) using the KIR problem reporting address disclosed to the CCADB. Further, on May 5, 2025 (~13:07 UTC) to the CA Email Alias address disclosed to the CCADB, but KIR failed to respond within the time requirement of Section 4.9.5 of the TLS BRs. Remediation Description: KIR CA Email Alias address disclosed to the CCADB was updated on 28.05.2025 to contain all and only persons from WebPKI team. Later, on 01.06.2025 KIR problem reporting address disclosed to the CCADB was updated to be dedicated email address for certificate problem reporting for fast processing within 24 hours. On 05.06.2025 an internal procedure was introduced for quarterly check of correctness and completeness of email group addresses.	22.05.2025	17.07.2025	TLS 2.5.2
1966006	The revocation of subordinate CA certificate Szafir Trusted CA3 was not disclosed to the CCADB within timeline required by Section 6 of the Chrome Root Program Policy and CCADB Policy (section 4. Subordinate CA Certificates). The issue was first noticed and reported by The Chrome Root Program (CRP) Team. Remediation Description: Operational procedure for disclosure/updating statuses to CCADB was updated on 13.05.2025. Training for WebPKI team was done and a monthly review of entries in the CCADB database (and after any major change in the PKI system) was introduced on 21.05.2025.	13.05.2025	01.07.2025	N/A
