To the management of TrustAsia Technologies, Inc. ("TrustAsia"):

We have been engaged, in a reasonable assurance engagement, to report on TrustAsia management's assertion that for its Certification Authority ("CA") operations at locations as enumerated in Appendix C, throughout the period 1 August 2024 to 31 July 2025 for its CAs as enumerated in Appendix A, TrustAsia has:

- disclosed its SSL certificate life cycle management business practices in its Certification Practice Statement (CPS) and Certificate Policy (CP) as enumerated in Appendix B, including its commitment to provide SSL certificates in conformity with the CA/Browser Forum Requirements on the TrustAsia website, and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and SSL certificates it manages is established and protected throughout their lifecycles; and
  - SSL certificate subscriber information is properly authenticated
- maintained effective controls to provide reasonable assurance that:
  - logical and physical access to CA systems and data is restricted to authorized individuals;
  - the continuity of key and certificate management operations is maintained; and
  - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline, v2.8](#).

TrustAsia has also designed and implemented functions supporting mass TLS certificate revocations in its Certificate Management Systems during the audit period.

principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Management (ISQM) 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements* and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

### **Auditor's responsibilities**

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of TrustAsia's SSL certificate lifecycle management business practices, including its relevant controls over the issuance, renewal, and revocation of SSL certificates, and obtaining an understanding of TrustAsia's network and certificate system security to meet the requirements set forth by the CA/Browser Forum;
- (2) selectively testing transactions executed in accordance with disclosed SSL certificate lifecycle management business practices;
- (3) testing and evaluating the operating effectiveness of the controls; and
- (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Relative effectiveness of controls**

The relative effectiveness and significance of specific controls at TrustAsia and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

### **Inherent limitations**

Because of the nature and inherent limitations of controls, TrustAsia's ability to meet the aforementioned criteria may be affected. For example, controls may not prevent, or detect and correct, error, fraud, unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection of any conclusions based on our findings to future periods is subject to the risk that changes may alter the validity of such conclusions.

### **Opinion**

In our opinion, throughout the period 1 August 2024 to 31 July 2025, TrustAsia management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline, v2.8](#).

## MANAGEMENT'S ASSERTION

TrustAsia Technologies, Inc. ("TrustAsia") operates the Certification Authority (CA) services known as CAs in Appendix A and provides TLS CA services.

The management of TrustAsia is responsible for establishing and maintaining effective controls over its TLS CA operations, its TLS CA business practices disclosure on its website, TLS key lifecycle management controls, and TLS certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to TrustAsia's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

TrustAsia management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in TrustAsia management's opinion, in providing its TLS CA services at locations as enumerated in Appendix C, throughout the period 1 August 2024 to 31 July 2025, TrustAsia has:

- disclosed its TLS certificate life cycle management business practices in its Certification Practice Statement (CPS) and Certificate Policy (CP) as enumerated in Appendix B, including its commitment to provide TLS certificates in conformity with the CA/Browser Forum Requirements on the TrustAsia website, and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and TLS certificates it manages is established and protected throughout their lifecycles; and
  - TLS certificate subscriber information is properly authenticated
- maintained effective controls to provide reasonable assurance that:
  - logical and physical access to CA systems and data is restricted to authorised individuals;
  - the continuity of key and certificate management operations is maintained; and
  - CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities - SSL Baseline - v2.8](#).

TrustAsia has also designed and implemented functions supporting mass TLS certificate revocations in its Certificate Management Systems during the audit period.

## 管理阶层认定报告

(本中文报告只作参考，正文请参阅英文报告)

亚数信息科技(上海)有限公司(以下简称“TrustAsia”)运营电子认证服务机构(以下简称“CA”，附件表 A 列举了 CA 所包括的根证书和中级证书)，并提供 TLS 电子认证服务。

TrustAsia 的管理层负责针对 TLS CA 服务建立并维护有效的控制，包括：TLS CA 业务规则披露、TLS CA 业务规则管理、TLS CA 密钥生命周期管理、以及 TLS 证书生命周期管理。这些控制包括监控机制及为纠正已识别的缺陷所采取的改进措施。

任何控制都有其固有限制，包括人为失误，以及规避或逾越控制的可能性。因此，即使有效的控制也仅能对 TrustAsia 运营的电子认证服务提供合理保证。此外，由于控制环境的变化，控制的有效性可能随时间而发生变化。

TrustAsia 管理层已对所提供的电子认证服务的业务规则披露及控制进行评估。基于此评估，TrustAsia 管理层认为，在 2024 年 8 月 1 日至 2025 年 7 月 31 日就 TrustAsia 在附件表 C 所列地点提供电子认证服务期间，TrustAsia 已：

- 在附件表 B 之 CP/CPS 中披露了 TLS 证书生命周期业务规则，包括承诺遵循 CA/Browser 论坛的相关指引提供 TLS 证书服务，并依据披露的业务规则提供相关服务
- 通过有效控制机制，以提供以下合理保证：
  - 建立并保护所管理的密钥和订户 TLS 证书在生命周期中的完整性；以及
  - 于 TrustAsia 所执行的注册操作恰当地鉴定 TLS 证书申请者的信息
- 通过有效控制机制，以提供以下合理保证：
  - 对 CA 系统和数据的逻辑和物理访问仅限于授权的个人；
  - 保持密钥和证书管理操作的连续性；以及
  - CA 系统的开发、维护和操作得到适当的授权和执行，以维持 CA 系统的完整

以符合 [WebTrust Principles and Criteria for Certification Authorities – SSL Baseline v2.8](#)。

在本审计周期，TrustAsia 还在其证书管理系统中设计并实现了支持大规模 TLS 证书吊销的功能。
