

## Independent Assurance Report

To the management of the TAIWAN-CA INC. :

### Scope

We have been engaged, in a reasonable assurance engagement, to report on TWCA management's assertion that for its Certification Authority (CA) operations at its locations as detailed in [Appendix A](#), throughout the period January 1, 2024 to December 31, 2024 for its CAs as enumerated in [Appendix B](#), the TWCA has :

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in its:
  - TWCA Cyber Certification Authority Certification Practice Statement [V1.1](#), effective from 29 February 2024; and
  - TWCA Global Certification Authority Certification Practice Statement [V2.0](#), effective from 28 June 2024; and
  - TWCA Public Key Infrastructure Certificate Policy [V2.6.1](#), effective from 1 July 2024;
- maintained effective controls to provide reasonable assurance that :
  - TWCA Certification Practice Statements are consistent with its Certificate Policy
  - TWCA provides its services in accordance with its Certificate Policy and Certification Practice Statements
- maintained effective controls to provide reasonable assurance that :
  - the integrity of keys and certificates it manages is established and protected throughout their lifecycles;

- the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
  - subscriber information is properly authenticated (for the registration activities performed by TWCA); and
  - subordinate CA certificate requests are accurate, authenticated, and approved
- maintained effective controls to provide reasonable assurance that :
    - logical and physical access to CA systems and data is restricted to authorized individuals;
    - the continuity of key and certificate management operations is maintained; and
    - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities v2.2.2.](#)

TWCA makes use of external registration authorities for specific subscriber registration activities as disclosed in TWCA's business practices. Our procedures did not extend to the controls exercised by these external registration authorities.

TWCA does not escrow its CA keys, and does not provide subscriber key generation services. and does not provide certificate suspension services. Accordingly, our procedures did not extend to controls that would address those criteria.

### **Certification authority's responsibilities**

TWCA's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification

Authorities v2.2.2.

## **Our independence and quality control**

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Control 1, *Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services, Engagements* and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

KPMG Audit Team qualifications are listed in [Appendix C](#).

## **Practitioner's responsibilities**

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

1. obtaining an understanding of TWCA's key and certificate lifecycle management business practices and its controls over key and certificate integrity, over the authenticity and confidentiality of subscriber and relying party information, over the continuity of key

and certificate lifecycle management operations and over development, maintenance and operation of systems integrity;

2. selectively testing transactions executed in accordance with disclosed key and certificate lifecycle management business practices;
3. testing and evaluating the operating effectiveness of the controls; and
4. performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The relative effectiveness and significance of specific controls at TWCA and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

TWCA's management has disclosed to KPMG the incidents as detailed in [Appendix D](#) that have been posted in Bugzilla website that can be accessed publicly.

### **Inherent limitations**

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

## Opinion

In our opinion, throughout the period January 1, 2024 to December 31, 2024, TWCA management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

This report does not include any representation as to the quality of TWCA's services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities v2.2.2, nor the suitability of any of TWCA's services for any customer's intended purpose.

## Use of the WebTrust seal

TWCA's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

A handwritten signature in blue ink that reads "Chen Pin Chi KPMG".

**Assertion of Management as to  
its Design of its Business Practices and its Controls Over  
its Certification Authority Operations during the period  
from January 1, 2024 through December 31, 2024**

**February 26, 2025**

The TAIWAN-CA INC. (TWCA) operates the Certification Authority ( CA ) services known as TWCA Root Certification Authority and TWCA Global Root Certification Authority, TWCA CYBER Root Certification Authority, TWCA Secure SSL Certification Authority, InfoSec Certification Authority and TWCA EVSSL Certification Authority. A full listing of the Root CAs and Subordinate CAs and their respective functions is in [Appendix](#) to this assertion letter. TWCA provides the following CA services :

- Subscriber registration
- Certificate renewal
- Certificate rekey
- Certificate issuance
- Certificate distribution
- Certificate revocation
- Certificate validation
- Subordinate CA certification

The management of the TWCA is responsible for establishing and maintaining effective controls over its CA operations, including its CA business practices disclosure on its [website](#), CA business practices management, CA environmental controls, CA key lifecycle management controls, subscriber key lifecycle management controls, certificate lifecycle management controls, and subordinate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to TWCA's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

TWCA management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in TWCA management's opinion, in providing its Certification Authority (CA) services at Taipei city , New Taipei city and Taichung city, Taiwan, throughout the period January 1, 2024 to December 31, 2024, TWCA has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in its:
  - TWCA Cyber Certification Authority Certification Practice Statement [V1.1](#), effective from 29 February 2024; and
  - TWCA Global Certification Authority Certification Practice

- Statement [V2.0](#), effective from 28 June 2024; and
- TWCA Public Key Infrastructure Certificate Policy [V2.6.1](#), effective from 1 July 2024;
- maintained effective controls to provide reasonable assurance that:
- TWCA's Certification Practice Statements are consistent with its Certificate Policy
  - TWCA provides its services in accordance with its Certificate Policy and Certification Practice Statements
- maintained effective controls to provide reasonable assurance that :
- the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
  - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
  - subscriber information is properly authenticated (for the registration activities performed by TWCA); and
  - subordinate CA certificate requests are accurate, authenticated, and approved
- maintained effective controls to provide reasonable assurance that :
- logical and physical access to CA systems and data is restricted to authorised individuals;
  - the continuity of key and certificate management operations is maintained; and

- CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity

in accordance with the [WebTrust Principles and Criteria for Certification Authorities V2.2.2](#), including the following:

#### CA Business Practices Disclosure

- Certification Practice Statement (CPS)
- Certificate Policy (CP)

#### CA Business Practices Management

- Certificate Policy Management
- Certification Practice Statement Management
- CP and CPS Consistency

#### CA Environmental Controls

- Security Management
- Asset Classification and Management
- Personnel Security
- Physical and Environmental Security
- Operations Management
- System Access Management
- Systems Development and Maintenance
- Business Continuity Management

- Monitoring and Compliance
- Audit Logging

#### CA Key Lifecycle Management Controls

- CA Key Generation
- CA Key Storage, Backup, and Recovery
- CA Public Key Distribution
- CA Key Usage
- CA Key Archival and Destruction
- CA Key Compromise
- CA Cryptographic Hardware Life Cycle Management
- CA Key Transportation
- CA Key Migration

#### Subscriber Key Lifecycle Management Controls

- Integrated Circuit Card (ICC) Lifecycle Management

## Certificate Lifecycle Management Controls

- Subscriber Registration
- Certificate Renewal
- Certificate Rekey
- Certificate Issuance
- Certificate Distribution
- Certificate Revocation
- Certificate Validation

## Subordinate CA Certificate Lifecycle Management Controls

- Subordinate CA Certificate Lifecycle Management

TWCA does not escrow its CA keys, and does not provide subscriber key generation services, and does not provide certificate suspension services. Accordingly, our assertion does not extend to controls that would address those criteria
