

REPORT OF THE INDEPENDENT ACCOUNTANT

To the management of Sectigo Limited (“Sectigo”):

Scope

We have examined Sectigo management’s [assertion](#) that for its Certification Authority (“CA”) operations in the locations enumerated in [Attachment B](#), for its CAs as enumerated in [Attachment C](#), Sectigo has:

- disclosed its extended validation SSL (“EV SSL”) certificate lifecycle management business practices in the applicable versions of its Sectigo Certification Practice Statement (“CPS”) and Sectigo WebPKI Certificate Policy (“CP”) as enumerated in [Attachment A](#), including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines on its [repository](#), and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
 - EV SSL subscriber information is properly authenticated (for the registration activities performed by Sectigo)

throughout the period of April 1, 2022 to March 31, 2023, based on the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, v1.7.8](#).

Certification Authority’s Responsibilities

Sectigo’s management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, v1.7.8](#).

Independent Accountant’s responsibilities

Our responsibility is to express an opinion on Sectigo management’s assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management’s assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management’s assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management’s assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The relative effectiveness and significance of specific controls at Sectigo and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

Inherent Limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorised access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Independent Accountant's Opinion

In our opinion management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Sectigo's services other than its CA operations in the locations as enumerated in [Attachment B](#), nor the suitability of any of Sectigo's services for any customer's intended purpose.

Other Matter

Without modifying our opinion, we noted the following other matters during our procedures:

Matter Topic		Matter Description
1	Certificate Content	Sectigo disclosed in Bugzilla #1793789 that it issued an EV SSL certificate with an incorrect Jurisdiction of Incorporation.
		Sectigo disclosed in Bugzilla #1796803 that it issued 322,161 certificates with the incorrect number of unused bits in their keyUsage BITSTRINGS.
		Sectigo disclosed in Bugzilla #1813989 that it issued 272 certificates with incomplete organizationName values in the subject.
2	Subscriber Validation	Sectigo disclosed in Mozilla Bug #1829746 that an EV SSL certificate was issued with a DCV older than 398 days.
3	Certificate Revocation	Sectigo disclosed in Bugzilla #1800756 that it did not revoke the affected certificates disclosed in Bug #1796803 within the Baseline Requirements timeframe.

While the Sectigo assertion notes all issues disclosed on Bugzilla from April 1, 2022 through the date of this report, we have only noted those instances relevant to the CAs enumerated in [Attachment C](#) and applicable to the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, v1.7.8](#).

Use of the WebTrust seal

Sectigo's use of the WebTrust for Certification Authorities - Extended Validation SSL Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

SECTIGO LIMITED MANAGEMENT'S ASSERTION

Sectigo Limited ("Sectigo") operates the Certification Authority ("CA") services for the root and other CAs in scope enumerated in [Attachment C](#), and provides Extended Validation SSL ("EV SSL") CA services.

The management of Sectigo is responsible for establishing and maintaining controls over its EV SSL CA operations, including its EV SSL CA business practices disclosure on its [repository](#), EV SSL key lifecycle management controls, and EV SSL certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Sectigo's CA operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Sectigo management has assessed its disclosures of its certificate practices and controls over its EV SSL CA services. Based on that assessment, in Sectigo management's opinion, in providing its EV SSL CA services in the locations as enumerated in [Attachment B](#), Sectigo has:

- disclosed its EV SSL certificate lifecycle management business practices in the applicable versions of its Sectigo Certification Practice Statement and Sectigo WebPKI Certificate Policy enumerated in [Attachment A](#), including its commitment to provide EV SSL certificates in conformity with the CA/Browser Forum Guidelines on the Sectigo [repository](#), and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
 - the integrity of keys and EV SSL certificates it manages is established and protected throughout their lifecycles; and
 - EV SSL subscriber information is properly authenticated (for the registration activities performed by Sectigo)

throughout the period of April 1, 2022 to March 31, 2023, based on the [WebTrust Principles and Criteria for Certification Authorities - Extended Validation SSL, v1.7.8](#).

Sectigo has disclosed the following matters publicly on Mozilla Bugzilla's platform. These matters were included below due to being open during the period April 1, 2022 through the date of this report.

Bug ID	Summary	Opened	Closed	Resolution
#1782356	Sectigo: Misspelled city name in localityName field	7/30/2022	10/5/2022	Fixed
#1793787	Sectigo: Non-existent hostname in CDP and AIA URLs	10/5/2022	10/26/2022	Fixed
#1793789	Sectigo: Incorrect JOI	10/5/2022	12/26/2022	Fixed
