INDEPENDENT ASSURANCE REPORT

To the management of BEIJING CERTIFICATE AUTHORITY Co., Ltd. ("BJCA"):

We have been engaged, in a reasonable assurance engagement, to report on BJCA management's assertion that for its Certification Authority (CA) operations at locations as enumerated in Appendix B, throughout the period 10 March 2025 to 9 March 2026 for its CAs as enumerated in Appendix A, BJCA has:

- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Network Security, v1.7](#).

Certification authority's responsibilities

BJCA's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance the [WebTrust Principles and Criteria for Certification Authorities – Network Security, v1.7](#).

Our independence and quality control

We have complied with the independence and other ethical requirements of the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Management (ISQM) 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements* and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Practitioner's responsibilities

Our responsibility is to express an opinion on management's assertion based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000, *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's assertion is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of BJCA's network and certificate system security to meet the requirements set forth by the CA/Browser Forum;
- (2) testing and evaluating the operating effectiveness of the controls; and
- (3) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at BJCA and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Opinion

In our opinion, throughout the period 10 March 2025 to 9 March 2026, BJCA management's assertion, as referred to above, is fairly stated, in all material respects, in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Network Security, v1.7](#).

This report does not include any representation as to the quality of BJCA's services beyond those covered by the [WebTrust Principles and Criteria for Certification Authorities – Network Security, v1.7](#), nor the suitability of any of BJCA's services for any customer's intended purpose.

Use of the WebTrust seal

BJCA's use of the WebTrust Principles and Criteria for Certification Authorities – Network Security Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

BJCA MANAGEMENT'S ASSERTION

BEIJING CERTIFICATE AUTHORITY Co., Ltd. ("BJCA") operates the Certification Authority (CA) services known as CAs in Appendix A and provides CA services.

The management of BJCA is responsible for establishing and maintaining effective controls over its CA operations, including its network and certificate security system controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to BJCA's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

BJCA management has assessed its controls over its CA services. Based on that assessment, in providing its Certification Authority services at locations as enumerated in Appendix B, throughout the period 10 March 2025 to 9 March 2026, BJCA has:

- maintained effective controls to provide reasonable assurance that it meets the [Network and Certificate System Security Requirements](#) as set forth by the CA/Browser Forum

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Network Security v1.7](#)

BJCA 电子认证服务的管理阶层认定报告

(本中文报告只作参考，正文请参阅英文报告)

北京数字认证股份有限公司(以下简称“BJCA”)运营电子认证服务机构(以下简称“CA”，附件表 A 列举了 CA 所包括的根证书和中级证书)，并提供 CA 电子认证服务。

BJCA 的管理层负责建立和维护对其 CA 运营的有效控制，包括其网络和证书安全系统控制。这些控制包括监控机制及为纠正已识别的缺陷所采取的改进措施。

任何控制都有其固有限制，包括人为失误以及规避或逾越控制的可能性。因此，即使有效的控制也仅能对 BJCA 运营的电子认证服务提供合理保证。此外，由于控制环境的变化，控制的有效性可能随时间而发生变化。

BJCA 管理层已对所提供的电子认证服务的控制进行评估。基于此评估，BJCA 管理层认为，在 2025 年 3 月 10 日至 2026 年 3 月 9 日就 BJCA 在附件表 B 所列地点提供 CA 服务期间，BJCA 已：

- 保持有效的控制，以提供合理保证，满足 [CA/浏览器论坛规定的网络和证书系统安全要求](#)

以符合 [WebTrust Principles and Criteria for Certification Authorities – Network Security – Version 1.7](#)。
